Re: Lake Alan Henry Water District
Regional Planning Coordination

Dear Ms. Clark:

Thank you for your efforts to coordinate regional water planning efforts between our regions. We want you to convey to the members of the Region G Planning Group at your next meeting our intention to amend our plan before the next planning cycle to include the sale of water from Lake Alan Henry.

Currently, the City of Lubbock is negotiating the sale of water from Lake Alan Henry (LAH) to the LAH Water District. A portion of the LAH Water District is in Kent County of Region G. The members of Region O support this effort between the City of Lubbock and the LAH Water District. We would ask that you consider including planning strategies in Kent County for the use of water from Lake Alan Henry as the Region G plan is updated.

Please contact me should you have questions.

Yours very truly,

LLANO ESTACADO REGIONAL WATER
PLANNING GROUP

Re: Lake Alan Henry Water District
Regional Planning Coordination

Dear Ms. Clark:

The City of Lubbock is currently negotiating the sale of water from Lake Alan Henry (LAH) to the LAH Water District. Since a portion of the LAH Water District is in Kent County and, thus, part of Region G, we wanted to inform you of this project. Lubbock's City Council has final approval for the sale of water from LAH.

Because a portion of the LAH Water District is in Region G, we believed it necessary to have open communications between our organizations regarding this effort.

Please contact me at 775-2001, should you have questions.

Sincerely,

Lou Fox
City Manager
