Dear Ms Clark,

My concern for environment is very great. I have been very alarmed over the lack of concern, therefore action, in protecting the environment in Texas.

My experience in dealing with the Brazos River Authority has been most discouraging. Illegal changing of creeks and ditches by private landowners has caused environmental damage. Employees of Brazos River Authority seem to lack knowledge, and a clear view of what this damage does to wildlife, trees and vegetation.

I encourage and support your efforts to come up with a "good" plan. I would be attending your meeting if it were not that I must travel to Alaska.  
I pray for success. Please keep me informed how things are going.  
Sincerely, Patricia M. Cain
