J. Kevin Ward
Executive Administrator
Texas Water Development Board
P.O. Box 13231
Austin, Texas 78711-3231

Dear Gentlemen:

I am writing to formally support the proposed amendment to the 2006 Brazos G Regional Water Plan regarding increases in steam-electric water demands for Somervell County and identifying a water management strategy to supply those increased demands.

I am the Somervell County Judge and submitted the proposed amendment request for review. Now I am writing to encourage the Region G Board to adopt the amendment.

Luminant's Comanche Peak nuclear power plant has been a good neighbor in our county for more than 30 years. They have kept their commitments to the people of our County and have taken care of the land, air and water. Specifically, they have a strong history of meeting all state and federal environmental quality standards.

The folks at Luminant and I have talked about the proposed new generation units, and they have assured me their focus on taking care of the area from an environmental perspective will continue with this potential expansion.

Somervell County residents certainly support this proposed expansion plan, and I encourage your support for this proposed amendment to the water plan as well.

Sincerely,
