Issue #8: Integrating Water Quality and Water Supply Considerations

Formatted: Centered, Line spacing: 1.5 lines

Formatted: Line spacing: 1.5 lines

The Brazos G Regional Water Planning Group (Brazos G) continues to support existing efforts of regulatory agencies to protect current and future sources of drinking water, including both groundwater and surface water supplies. Brazos G, as well as the regulatory agencies, are committed to ensuring both the quality and quantity of water for our constituents. Furthermore, Brazos G encourage all governmental agencies, when making regulatory or permitting decisions or influencing decisions regarding land and resource use, to give preference to alternatives to protect or enhance the quality of water so that such water resources may be utilized for beneficial use, whenever possible. As a planning group, protecting and enhancing these resources and sustaining our supply will always be among Brazos G's priority commitments.
