

NOTICE OF SUB-REGIONAL PUBLIC MEETINGS

December 30, 2009

BRAZOS G RWPG INTERESTED PARTIES:

The Brazos G Regional Water Planning Group (Brazos G) will hold three (3) sub-regional public meetings within the Brazos G planning area on January 12, 13, and 14, 2010. These meetings are being held to obtain local stakeholder input on the 2011 Initially Prepared Brazos G Regional Water Plan (2011 Initially Prepared Plan) prior to its submission to the Texas Water Development Board.

The Texas Water Development Board has completed population and water demand projections and the Brazos G Regional Water Planning Group has estimated available supplies to meet the projected water demands. Water management strategies will be identified in the 2011 Initially Prepared Plan to meet shortages whenever the projected demands exceed projected supplies.

These meetings will provide stakeholders with the opportunity to provide input on matters regarding available water supplies, projected water shortages (needs), and preferred water management strategies to address the needs identified in the 2011 Initially Prepared Plan.

Draft sections of the 2011 Initially Prepared Plan, meeting agendas, and related materials will be posted on the Brazos G website, located at www.brazosgwater.org, ten (10) days prior to the first public meeting date. Meeting locations, dates, and times are as follows:

**UPPER BRAZOS G RWPG SUB-REGIONAL MEETING
Abilene, Tuesday, January 12, 2010, 6 pm**

Abilene Civic Center
