RE: Region G's written request, received January 19, 2010, for a determination regarding whether amending the 2006 Region G Regional Water Plan to include the Johnson County Special Utility District Trinity Basin Transmission Facility project would be a minor amendment under 31 TAC Ch. 357.16.

Dear Mr. Buzbee:

I have reviewed Region G's request and, based on Region G's request and supporting materials, have determined that adding the Johnson County Special Utility District (JCSUD) Trinity Basin Transmission Facility project constitutes a minor amendment under 31 TAC Ch. 357.16.

If Region G adopts the proposed minor amendment, Region G will need to:

- Provide the Texas Water Development Board (TWDB) with documentation of the planning group action adopting this water management strategy as a minor amendment;
- Issue and distribute an addendum to the 2006 Region G Regional Water Plan updating the plan accordingly;
- Provide TWDB with corrected DB07 data to reflect all the associated changes to the 2006 Region G Regional Water Plan and the 2007 State Water Plan; and,
- Request that JCSUD obtain a web link from TWDB staff in order to fill out an associated online Infrastructure Financing Survey regarding how the entity plans to finance the project associated with the amendment.

If Region G makes any substantive changes to the project components or configuration during the minor amendment process, TWDB will need to review the modified proposed amendment to ensure that the modified project still meets all of the criteria under 31 TAC Ch. 357.16.

Our Mission

To provide leadership, planning, financial assistance, information and education for the conservation and responsible development of water for Texas.
