WORK EXPERIENCE:

Serving as County Judge for Knox County. The duties of the county judge are broad and includes being the presiding officer of the commissioners court. A major responsibility for the commissioners court relates to setting the county budget, supervision and control of the county courthouse, county buildings and facilities, determining county tax rates, filling vacancies in elected and appointed positions. Additionally, the commissioners courts are responsible for building and maintaining county roads and bridges, letting contracts, administering and making key decisions regarding libraries, county hospitals and health programs. Additional responsibilities of the judge are hearings for beer and wine license applications, calling elections, posting election notices, and canvassing the election returns, serves as Emergency Management Director. In addition I hear criminal, civil, probate, juvenile and mental competency matters. I have appellate jurisdiction over matters arising from the justice courts. I also represent the county at ceremonial occasions and on many boards and committees.

Served as NTSG's Professional Services, National Account Manager, with Cisco Systems Inc. as the primary account. Performed Life-Cycle duties consisting of responding to the Request for Proposal (RFP), determine Material and Labor costs, determine the Turn-Up and Test costs, and determine the expenses associated with the RFP to respond back to Cisco/Customer with a Quote from NTSG. Work with customer to develop the Statement of Work (SOW) and track it through the Purchase Order process. Schedule site survey, detailed engineering, and installation start date. Single point of contact for Cisco, Customer, and the NTSG team. Project Manage the project through completion.

Developed Fault Management and Configuration Management processes for Winstar in Herndon Virginia

Subject Matter Expert in the field of Disaster Recovery for Lucent Technologies in Hilversum, Holland. Wrote Disaster Recovery Processes for the Network Operations Center for the Telfort SDH project.

Served as Subject Matter Expert in developing Operations, Administration, and Maintenance (OA&M) Processes for Saudi Telecommunications Company (STC) in Saudi Arabia. These processes were in support of a new product named, AirLoop Wireless Local Loop. These processes included installation, Subscription office, provisioning, maintenance, repair service and return, network monitoring, etc.

Provided consultancy for Centrum Radiocommunications & Telecommunications (CRiT) in Poland in support of implementing the Netminder-Network Capacity Engineering (NCE) system. This consultancy provided expertise in Network Administration consisting of Capacity Management, Equipment Administration, and Service Analysis.

Served as Subject Matter Expert in the field of Capacity Management, to lead a Process Management Team for PT Telkom Indonesia to analyze current processes and develop recommendations for improvement in those processes. These processes include Network Capacity Forecasting, Planning, Optimization, and Procurement, and maintaining the accuracy of the Capacity and Equipment Inventory.

Support System Manager for five supervisors and a clerk that analyzes and evaluates user requirements and statistical data to negotiate, prioritize, and project manage new systems development, related to facility equipment planning, engineering, and provisioning. Systems under my responsibility are RESPOND, FPSC, CLSEA, CLMain, and MTPS.

Developed and implemented a total integrated process to introduce the Digital Access Communications System (DACS) IV technology into the network by establishing the DACS IV prototype center. This included planning, engineering, implementation, and provisioning. Support Manager for 7 supervisors and 27 clerks.

Responsible for maintenance planning and operations methods to introduce and maintain the DACS III, DACS IV, and associated equipment into the existing Transport Maintenance structure. Liaison between Bell Laboratories and the Transport Maintenance and Element Engineering organizations.

Managed an On Site Work Force (OSWF) group at Noble, Ok. that included 17 technicians, 1 Clerk, 26 radio stations, and 125 miles of Fiber cable.

SIGNIFICANT ACCOMPLISHMENTS:

Developed the initial Operations, Administration, and Maintenance Processes in support of the new AirLoop product. We delivered processes covering Installation, Provisioning, and Network Maintenance and Monitoring.

Introduced the methodology of network capacity management to Centrum Radiocommunications & Telecommunications company. This methodology provides capacity management techniques to deliver optimum performance for the network. This includes % Overflow, Answer to Seizure Ratio, Circuit Occupancy, and % Dial Tone Delay.

Introduced Process Management Techniques to PT Telkom Indonesia and developed Capacity Management Processes that significantly improved their ability to forecast short-term and long-term requirements. By providing adequate capacity, the answer to seizure ratio and the answer to bid ratio showed significant improvement.

Developed a Support Systems Management team and processes to manage systems development that crossed several different operational processes. This team receives system requirements from NTD, NCP&D (5 Level 5's), and Network Planning. The Systems support the planning, implementation, order management, and provisioning processes.

Initiated and managed the introduction of the DACS IV Prototype Center.

Managed the process of planning and implementing multiple DACS IV's into the Transport Network.

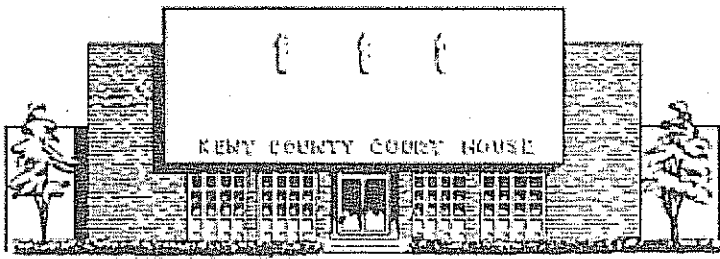

Directed and coordinated the initial conversion of the TH-3 to AR6A Microwave Radio System.

Introduced the ME645A Anritsu Radio Test Set to the Network. Included writing all Bell System Practices (BSP's) to support the analog radio network.

The OSWF team, under my supervision, was selected as an example of excellence and was highlighted at the AT&T FORUM in Hopewell, N.J.

WORK HISTORY:

2005-Present	Knox County Judge, Benjamin, Texas 79505
2000-2003	National Account Manager for NTSG, Inc. with the primary customer being Cisco Systems, Inc.
1999-2000	Consultant for Network Technical Services Group under contract with Lucent Technologies Network Knowledge Solutions, working with Saudi Telecommunications Company in support of the new AirLoop, Wireless Local Loop product.
1998-1999	Consultant for Network Technical Services Group under contract with Lucent Technologies Network Knowledge Solutions, working with CRiT in Poland to support the NCE system.
1997-1997	Consultant for Network Technical Services Group under contract with Lucent Technologies working with PT Telkom Indonesia on a Knowledge Transfer Project.
1992-1996	AT&T, Manager - Capacity Planning & Delivery Support System for Facility Systems, Atlanta, Ga.
1991-1992	AT&T, Manager - DACS IV Prototype Center, Atlanta, Ga.
1987-1991	AT&T, Staff Manager - Technology Introduction and Maintenance, Bedminster, N.J.
1980-1987	AT&T, Supervisor - Line Group Operations, Noble, OK.
979-1980	AT&T, Staff Supervisor - Transmission Engineering, Kansas City, Mo.
1965-1979	AT&T, Communications Technician, Sweetwater, Seguin, and San Antonio, Tx.

Brazos G Selection Committee
Brazos G Water Planning Group
Waco, Texas

Dear Selection Committee:

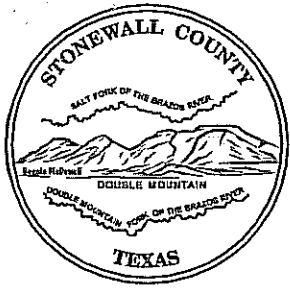

I would like to express my support for the Honorable Travis Floyd to become a member of the Brazos G Water Planning Group. Judge Floyd is a resident of the North Western portion of the Brazos River Authority and we must continue to have representation from this area. Judge Floyd is familiar with some of the issues that are vital to water protection for the entire Region G, such as the natural salt pollution that is occurring up-stream of the reservoirs that are targeted for and or being used for consumption downstream on the Brazos River. He is aware of the tremendous costs associated with prevention and correction of this growing problem because of his association with a Brine capture reservoir located in Knox County near the community of Truscott. He has knowledge of research being conducted in Stonewall and Kent Counties involving attempts to reduce the salt pollution in the Salt Fork of the Brazos River by drilling brine wells to lower the salt table and that would aid the drying of the natural salt springs that are causing some of the pollution flowing into the Brazos River. His desire of conservation and correction of water quality along with quantity would be a valuable asset of any group concerned with the problems that must be considered in preserving the precious resource of water for the future. I believe him to be capable and willing to become a dedicated and devoted individual to accomplishing this task. I recommend that you strongly consider Judge Floyd as a candidate for the Brazos G Water Planning Group.

Sincerely Yours,

Jim C. White

Ref: Brazos G Planning Group Board

I highly recommend Travis C. Floyd be selected to serve on the Brazos G planning board. Travis has shown himself to be a well informed and diligent servant of the citizens of Knox County. I know that if selected to serve, he would bring that same dedication to the board. He recognizes the value of and requirement for water (both ground and surface) in the sustainment of livelihood in the State of Texas.

Sincerely,

Bobby McGeugh

To Whom It May Concern,

This letter is sent to endorse Judge Travis Floyd of Knox County, to be appointed as a county representative. I feel with all of his achievements and accomplishments that Judge Floyd would be a valuable asset to the board. He will make a great county representative to the Brazos G Regional Water Planning Group. Thank you for your time and consideration on this.

Sincerely,

Re: Consideration for County Voting Member

Dear Ms. Clark:

On behalf of the Mayor, City Commission and the City of Breckenridge, I am offering this letter for your consideration for the appointment of Knox County Judge Travis Floyd to serve as a voting member on the Brazos G RWPG representing counties. The City of Breckenridge would support the nomination for a vacancy on your Planning Group of Judge Travis Floyd, due to the varied background he has had.

Travis Floyd is currently the Knox County Judge, and has held this position since 2005. He is knowledgeable in West Texas Regionalization Water Supply. Judge Floyd has lived in and worked in both small, large, and rural communities throughout his work history.

It is the opinion of the City of Breckenridge that Judge Travis Floyd would bring experience to the current Group, as well as serve with a good working relationship with the current Board members. The favorable consideration by the Region G Regional Water Planning Group in taking this nomination for Travis Floyd to serve as a member representing counties would be greatly appreciated by the City of Breckenridge.

Sincerely,

Gary G. Ernest
City Manager

Waco, TX 76714-7555

Dear Executive Committee,

I am writing this letter in support of County Judge Travis Floyd. I have very high regards for the work he has done as county judge in Knox County. Travis is a great asset to rural small cities and towns of Knox County as Knox County Judge. As judge he has led the Commissioners Court and the county and they have made great progress both financially and physically in the growth of the county.

I feel that Travis would make an excellent board member or the Brazos G RWPG. He has the experience as a planner and leader of many projects. He would be a great asset to Brazos G RWPG.

Sincerely,

Dwayne Bearden,
City Administrator
